Limonene

According to IFRA Limonene and natural products containing substantial amounts of it, should only be used when the level of peroxides is kept to the lowest practical level. Such products should have a peroxide value of less than 20 millimoles peroxides per litre. The recommendation is to contain an anti-oxidant, example: Tocopheryl acetate or Tocopherol.

Geraniol

Max. Allowed concentration in Category 4 products: 5.3%

This product is compliant with the IFRA restriction established for it, as the maximum concentration of Geraniol in the final product would be 0.019

Allergens Conclusion

The presence of these allergens must be indicated in the list of ingredients when their concentrations exceed:

0.001% in leave-on products

0.01% in rinse-off products

For the purpose of this product, the allergens list is: Citral, Linalool, Limonene, Geraniol, however due to the type of product this is and the low levels contained, according to labelling requirements of EU Regulation 1223/2009, only the following allergens are required to be listed in your ingredients: Citral, Linalool, Limonene, Geraniol,

Allergens are present in this formulation and therefore a suitable antioxidant should be present in the formulation to ensure peroxides do not form within the product. This product contains , Tocopherol (Vitamin E) and therefore is adequately protected from the formation of peroxides.

In the light of this information, it can be concluded that based on a weight of evidence approach and under reasonably foreseeable use, this product is safe for human health.

This report has been prepared from information provided by the responsible person as well as publicly available information on the ingredients used in the formulations.

PART 2 ASSESSMENT CONCLUSION

According to Regulation EC N° 1223/2009 of the European Parliament and the Council of 32 November 2009 on cosmetic products (Official Journal L 342, 22 December 2009, pp. 59-229) the product is safe for human health when used under normal or reasonably foreseeable conditions of use.

PART 3 STATEMENTS FOR PARTICULAR LABELLING OR INSTRUCTIONS FOR USE

In accordance with Art.19 of Regulation EC N° 1223/2009, there is no need to label a particular warning or instruction for use.

Name and Address of the responsible person:

UAB Verdigo

Biokosmetikos akademija
Svitrigailos str. 5, Vilnius,
Lithuania

Nominal content at the time of packaging: ml

Date of minimum durability indicated by: Best used before the end of MM/YEAR (24 months Months) or  MM/YEAR.

Function of the cosmetic product: It is a deeply relaxing, warming blend of therapeutic-grade essential oils that feels soothing and comforting skin, muscles and joints.

Batch number / reference:

Naturallythinking Assessment Reference: ZCUSTOMER164824
