

Rīga, 12.01.2017.

Latvian Olympic Team used the Santa Sita oil for 6 months. It was used by both sports doctors and physiotherapists who work with the best Latvian athletes who take part in the World Championships, Olympic Games and other international competitions.

All rated oil pleasant aroma, very good absorption ability of the patient's skin and the chief of its analgesic and anti-inflammatory activities in the joints and muscles.

Oil has a good analgesic effects wear at high loads on the muscles and joints.

Want to address that using oil has not have any allergic reactions.

This product has become an integral part of each doctor and physiotherapist to work with our athletes.
